FOR TOMORROW

We try to minimize our environmental impact. The cleanest energy is that not wasted. Please use electricity responsibly. For a correct use of the heat and air conditioning, use only when you are in the apartment. **It is very important**, for safety reasons, to turn off appliances while not home. (less the light next to the TV. It is fine if you leave it on when you aren't in the apartment)

The apartment has a **Electric System like hotels** to cut the electricity when you are out of the apartment. You have to put the **small black key** in a switch behind the apartment door next to the Fuse Box.

The heat and air conditioning units are set to the ideal temperatura. If you need to regulate the temperature, please use only the arrows and do not touch any of the settings.

FOOD AND DRINK

I sent you an email with a google maps link with some of my favorite spots for tapas, drinks and shopping.

Tap water is safe to drink.

DO YOU SMOKE?

No problem, but not inside. It is prohibited in this non-smoking apartment. It takes a long time to get the smell out and this affects incoming guests. We count on your understanding and hope we do not have to charge the 150 Euro fine in case you do decide to smoke inside the apartment.

HOT WATER.

The hot water system is an automatic electric deposit (after the second shower you have to wait around 10 minutes)

AND MOST IMPORTANT OF ALL...

Wi-fi. To enjoy your free wifi, the code is located in a sticker in the back side of the router (it is a very long code with numbers and letters).
