

WELCOME TO SEVILLE!!

This packet of information is intended to make your stay as comfortable as possible.

KEYS

I only leave one set of keys for the apartment because the CODES I sent you for the street door and for the safe will be the same for entire your stay, so you don't have to take the keys with you. You can leave them inside the safe when you are out of the apartment if you want.

Don't lock the door for the patio because there is another apartment in the same patio.

CHECK IN AND CHECK OUT

Official check in time is 1:30 pm.

Check out time is 11am. Still sleepy? No problem. You may be able to stay until 4pm for only 30Euros extra if previously authorized. Check with me the day before your departure to see if this is a possibility.

Leave the keys **in the safe 2A** before leave the apartment your last day.

FOR TOMORROW

We try to minimize our environmental impact. The cleanest energy is that not wasted. Please use electricity responsibly. For a correct use of the heat and air conditioning, use only when you are in the apartment. **It is very important**, for safety reasons, to turn off appliances while not home. (less the light next to the TV. It is fine if you leave it on when you aren't in the apartment)

The apartment has a **Electric System like hotels** to cut the electricity when you are out of the apartment. You have to put the **small black key** in a switch behind the apartment door next to the Fuse Box.

The heat and air conditioning units are set to the ideal temperatura. If you need to regulate the temperature, please use only the arrows and do not touch any of the settings.

FOOD AND DRINK

I sent you an email with a google maps link with some of my favorite spots for tapas, drinks and shopping.

No problem, but not inside. It is prohibited in this non-smoking apartment. It takes a long time to get the smell out and this affects incoming guests. We count on your understanding and hope we do not have to charge the 150 Euro fine in case you do decide to smoke inside the apartment.

HOT WATER.

The hot water system is an automatic electric deposit (after the second shower you have to wait around 10 minutes)
